OVERVIEW

The objective of the Master of Arts in Organizational Leadership (MAOL) degree program is to provide a distinctively Christian interactive educational experience that results in qualitative change in the leader's life, relationships and leadership practices. It focuses on the specific needs and issues facing Christian leaders living and working in majority world countries.

Over the course of the three-year, part-time program students engage in a hybrid of classroom and distance learning, which entails biannual gatherings, individual study and student learning groups. Students experience character and skill development in a variety of capacities and gain the credibility that comes from earning a Master's degree.

- Provide an accessible and flexible schedule
- Create an interactive learning environment
- Provide students with practical projects where they apply their learning to their current leadership role
- Answer leadership questions from a Christian worldview
